Bespoke Staircases

Spiral UK staircase design options and price guide

Price guide information

At Spiral UK we understand the importance of selecting the right style, material and finish for your staircase in order to ensure your staircase design reflects the overall interior design of your home.

Our experience in the design, manufacture and installation of bespoke staircases means we know how to create stunning staircases that suit the look and feel you wish to achieve.

We do this by making sure that our team of designers, craftsman and installers work with you to deliver an excellent, design, service and finish. Ensuring an elegant eye catching staircase that meets your expectations.

To help you with this selection process we have put together this guide showcasing the types of staircase designs we produce and some of the materials that are available.

If you have any questions or queries do please get in touch. We are always happy to talk through design ideas and costs.

Types of staircases

The three most popular bespoke staircases we produce are spiral, curved and straight staircases. These can be designed in a variety of styles from open risers cantilever treads to closed risers with timber treads.

We hope you will find the following examples helpful.

"ALL OUR GUIDE PRICES ARE FOR THE TOTAL COST OF THE PROJECT AND COVER STAIRCASE DESIGN, MANUFACTURE AND INSTALLATION"

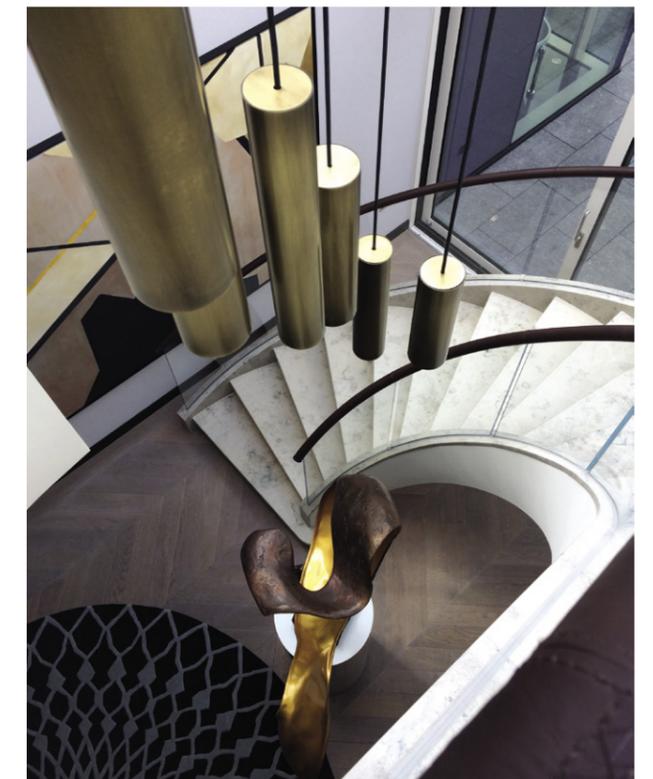

Spiral staircase

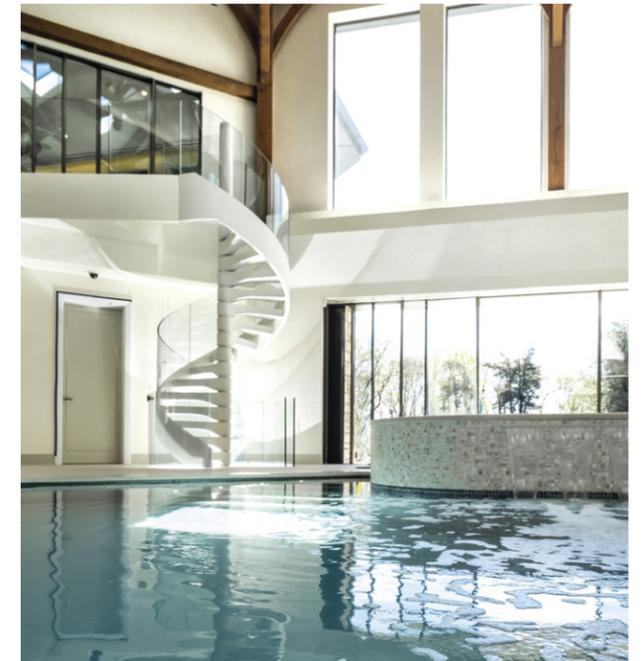

Straight staircase

Curved (helical) staircase

Cantilever stone spiral staircase

Staircase Type: Cantilever Spiral Stair
 Material: Natural Stone (Botticino Italian Marble)
 Balustrade: Curved toughened glass
 Handrail: Satin polished stainless steel
 Guide Price: £20-25K

Concrete poolside spiral staircase

Staircase Type: Concrete Spiral Staircase (Over two floors)
 Material: Concrete with steel stringer
 Balustrade: Curved toughened glass
 Handrail: Satin polished stainless steel
 Guide Price: £40-60k

Spiral staircase

A spiral staircase is a staircase that as it rises, turns constantly around a central axis. This central pole means they don't need to be attached to a wall and can be installed anywhere within a property.

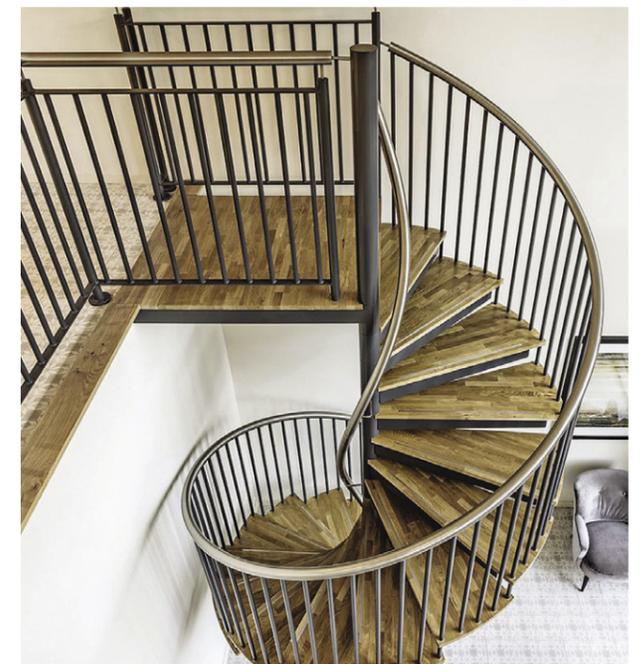

Concrete spiral staircase

Staircase Type: Spiral Staircase
 Material: Concrete
 Balustrade: Curved toughened glass
 Handrail: Satin polished stainless steel
 Guide Price: £10-15,000

Elite spiral staircase

Staircase Type: Elite Spiral Staircase
 Material: Stainless steel and timber
 Balustrade: Curved toughened glass
 Handrail: Satin polished stainless steel
 Guide Price: £20k

Spiral staircase with timber tread

Staircase Type: Spiral Staircase
 Material: Timber and mild steel
 Balustrade: Mild steel powder coated
 Handrail: Satin polished stainless steel
 Guide Price: £15k

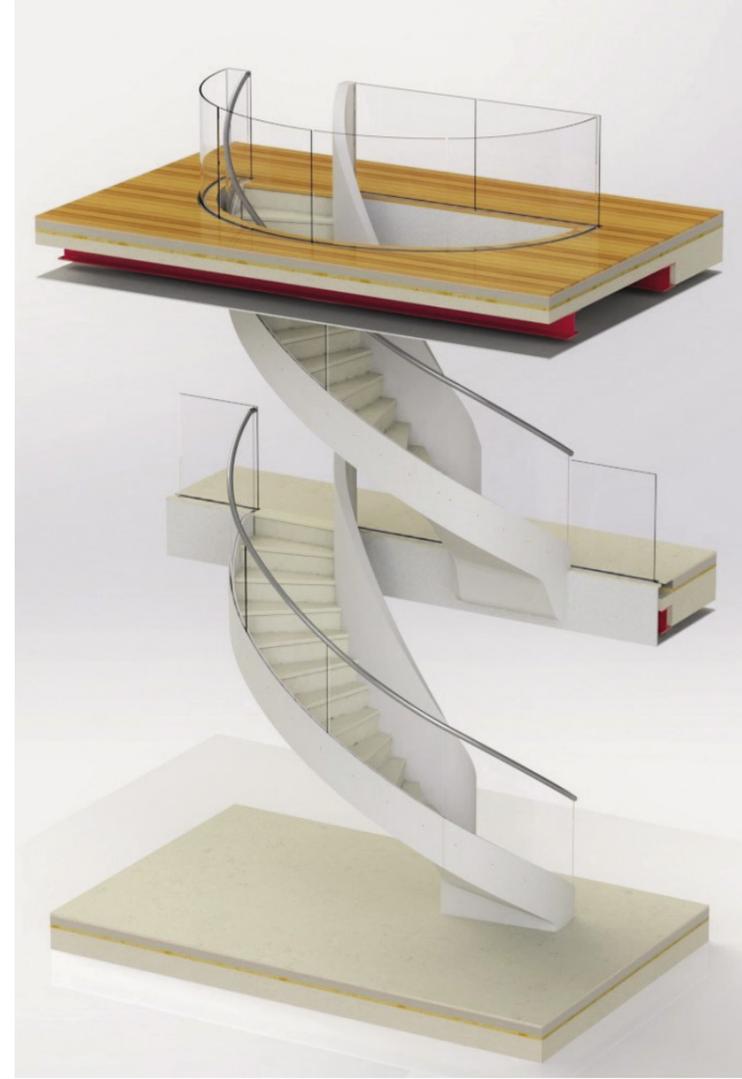

Straight staircase

Often used for an understated interior style, straight staircase designs can vary depending on the intricacy required. Currently our most popular styles are: dog-leg stairs which are straight stairs that have a landing to change direction. Spine beam staircases which have a central long beam underneath with treads on both sides and cantilevered or floating stairs - a style that can be applied to any type of staircase.

Curved staircase

Unlike spiral staircases the treads on a curved staircase do not revolve around a central column instead they follow a gently flowing arc. They are often referred to as helical staircases.

Cantilever straight stair

Staircase Type: Cantilevered Straight Flight
 Material: Timber
 Balustrade: Toughened frameless glass
 Handrail: Satin polished stainless steel
 Guide Price: £25k

Straight spine beam

Staircase Type: Spine Beam
 Material: Concrete and steel
 Balustrade: Toughened frameless glass
 Handrail: Satin polished stainless steel
 Guide Price: £20-30k

Helical (curved) staircase

Staircase Type: Helical Staircase
 Material: Steel with stone treads
 Balustrade: Curved toughened glass
 Handrail: Leather wrapped
 Guide Price: £40-60k

Helical (curved) staircase

Staircase Type: Helical Staircase
 Material: Steel, timber treads and boarded balustrade
 Balustrade: Curved toughened glass
 Handrail: Timber
 Guide Price: £100k

Materials and finishes

Many of our staircases are crafted from a steel structure but we work with a range of materials including steel, timber, concrete, stone, glass and stainless steel.

Treads

You can choose from different treads in wood, glass or concrete and we can supply samples.

Finishes

We can supply the stairs pre-finished or ready to receive final in situ spraying, we can do the spraying or leave the stair primed ready for site decoration. Finishes include painted steel, powder coating, stainless steel, weathered steel, wet paint or lacquered.

Handrails

Our handrails can also be designed and installed in stainless steel, wood, glass, timber or leather clad.

Balustrade

In addition to installing balustrade and handrails as part of a staircase installation we can also design and fit balustrade for balconies, landings or terraces which complement the overall design of a building. We offer this in a range of materials including steel, wood, glass, timber or leather clad.
